Abhishek Mandal

Software Engineer

abhisheksinghmandal@gmail.com Github LinkedIn 7702038027

Summary

Software Engineer with 2.9 years of experience designing, developing, and maintaining web, mobile, and backend applications. Proficient in React, TypeScript, JavaScript, Node.js, Express.js, Python FastAPI, RESTful APIs, MySQL, and MongoDB. Experienced in delivering end-to-end features for multi-tenant SaaS platforms, implementing Role-Based Access Control (RBAC) and Attribute-Based Access Control (ABAC), developing authentication workflows, integrating third-party services, and managing database-driven business processes. Skilled in cross-layer debugging, API integration, and production troubleshooting, with a focus on building secure, scalable, maintainable, and user-centric applications. Currently strengthening knowledge of Java, Spring Boot, microservices, cloud-native technologies, and automated testing to expand capabilities in enterprise application development.

Professional Experience

02/2025 – Present
Hyderabad, India
Zenbeta Technologies Private Limited — Software Engineer

12/2023 – 01/2025
Hyderabad, India
AMDV Technologies Pvt. Ltd. — Junior Software Engineer

Education

2019 – 2023
Hyderabad, India
B.Tech - Electrical and Electronics Engineering
Malla Reddy Institute of Engineering & Technology

2017 – 2019
Hyderabad, India
Intermediate - MPC [Mathematics, Physics, Chemistry]
Narayana Junior College

2003 – 2017
Hyderabad, India
SSC - [Secondary School Certificate]
Udbhav School

Projects

Project: Zenbeta Website

- Developed the Zenbeta static website based on provided designs and requirements using React, Vite, TypeScript, and Tailwind CSS.

Project: Raider

- Designed and developed the MVP of Raider, a multi-tenant, role-based SaaS application for case management and field operations.
- Built the frontend and backend using React, Vite, Tailwind CSS, JavaScript, Node.js, Express.js, and MongoDB.
- Implemented multi-tenant architecture and role-based access control for tenants, users, FOS, and Telecallers.
- Developed RESTful APIs and case management workflows for uploading, assigning, tracking, and updating cases.
- Integrated Raider with a mobile application enabling FOS and Telecallers to manage assigned cases and submit real-time updates.

Client Project: Sipora

- Developed a role-based web and mobile application using React, TypeScript, Tailwind CSS, Python FastAPI, and Flutter.

- Built workflows for franchise and warehouse onboarding, product management, and shop/location management.
- Implemented location-based shop discovery, allowing users to find nearby shops within a 20 km radius.
- Developed pre-ordering functionality for both dine-in and home delivery orders.
- Integrated 2Factor for OTP-based registration and sign-in authentication.
- Integrated Firebase Cloud Messaging (FCM) for mobile push notifications.
- Developed responsive AI Multimedia platform frontend using React, Vite, TypeScript, and Tailwind CSS.
- Integrated RESTful APIs and built reusable UI components for dynamic AI-generated multimedia content.
- Collaborated on feature development, debugging, and API integration to improve application performance and user experience.

Programming Languages & Software Tools

- **Programming Languages:** JavaScript, TypeScript, Python, Flutter
- **Java & Enterprise Technologies — Learning:** Java Fundamentals, Object-Oriented Programming (OOP), J2EE, Spring Framework, Spring Boot, Spring MVC, JPA/Hibernate
- **Frontend Development:** React.js, Vite, Tailwind CSS, Responsive Web Design, Component-Based UI Development
- **Backend Development & APIs:** Node.js, Express.js, Python FastAPI, RESTful API Development, API Integration
- **Mobile Development:** Flutter, Mobile-to-Backend Integration
- **Databases & Data Management:** MySQL, MongoDB, Data Modeling, Querying, Database-Driven Workflows
- **Architecture & Security:** Multi-Tenant SaaS Architecture, Role-Based Access Control (RBAC), Attribute-Based Access Control (ABAC), JWT Authentication, OTP-Based Authentication, API Authorization
- **Third-Party Integrations:** 2Factor OTP, Firebase Cloud Messaging (FCM)
- **Cloud, DevOps & Testing — Familiarity/Learning:** Microservices, OAuth 2.0, Unit Testing, Integration Testing, CI/CD, Docker, Microsoft Azure Concepts, Serverless Architecture
- **Tools & Deployment:** Tauri, Zustand, Application Deployment, Production Releases, Debugging, Troubleshooting

Personal Qualities

- **Adaptability & Continuous Learning:** Quick to learn and adapt to new technologies, frameworks, and evolving project requirements.
- **Self-Motivation & Collaboration:** Proactive and self-driven, with the ability to work independently and collaborate effectively within cross-functional teams.
- **Debugging & Problem-Solving:** Strong analytical and troubleshooting skills, with the ability to identify root causes and resolve complex technical issues.

Interests

- **Continuous Learning:** Passionate about exploring emerging technologies, learning new frameworks, and staying up to date with software development trends.
- **Innovation & Experimentation:** Enjoy building innovative solutions, exploring new ideas, and experimenting with technologies to solve real-world problems.

Declaration

I hereby declare that the information provided above is true and accurate to the best of my knowledge and belief.

Abhishek Mandal
